# Gallery

Collection of miscellaneous images mostly related to research and teaching. Click on image to get more detailed view.

## GUI programming in Octave

This is a quick-and-dirty attempt at writing application in Octave with GUI control.

A movie and source code can be found here : [GUI in Octave](#)

## Ad hoc animation in Matlab

Ad hoc animation in Matlab. The car image courtesy of Anna Najder.

[cartree.mp4](#)

## Paper engineering

Images of some solutions to quick engineering exercise : building simple structure from printing paper  
[Quick paper engineering](#)

## Xfig drawings collection

Xfig sources of all figures in this collection are available via [GitHub repository FigReop](#)

- [2D domains](#)

## ParaView exercises

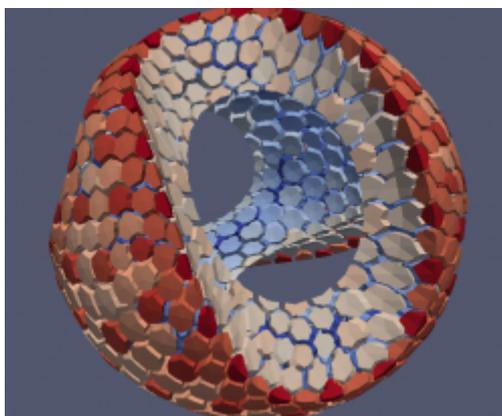

- [Cook's membrane geometry and mesh](#)

## ParaView versus Matlab

[On this page](#) you can find comparison of visualization of displacement field for a deformation of unit square into quarter of a disk. The visualization is done in Paraview and in Matlab.

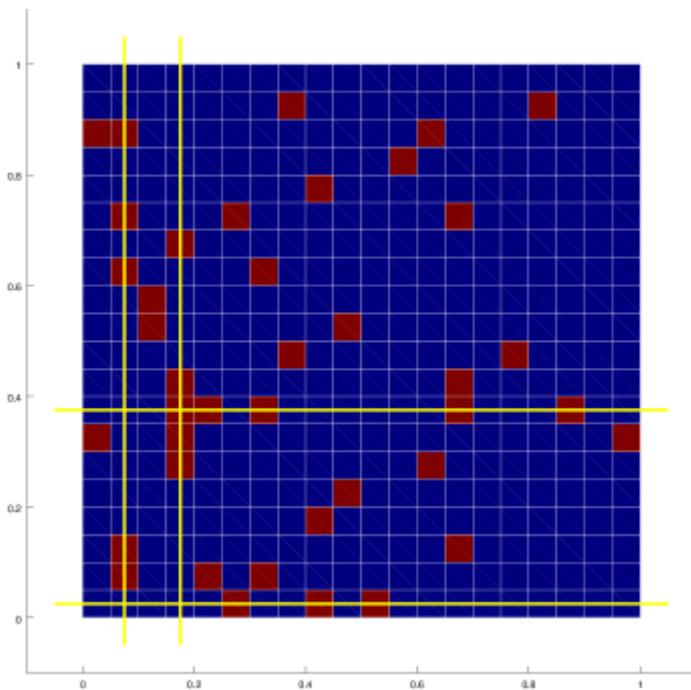

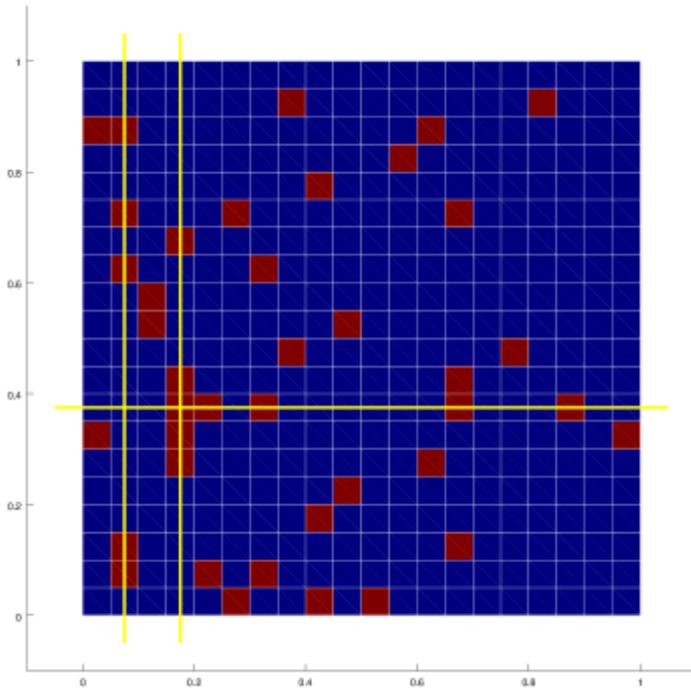

## Polyhedral mesh generation

Click on the image to see a short animation. More can be seen on the [PolyGen page](#).

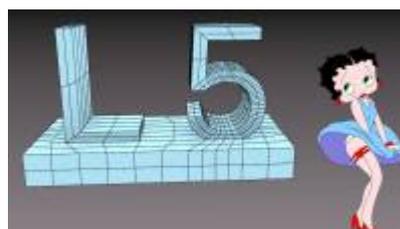

## Mesh adaptation

Couple of images and animation related to mesh adaptation can be found [this page](#)

## L-5 Fun

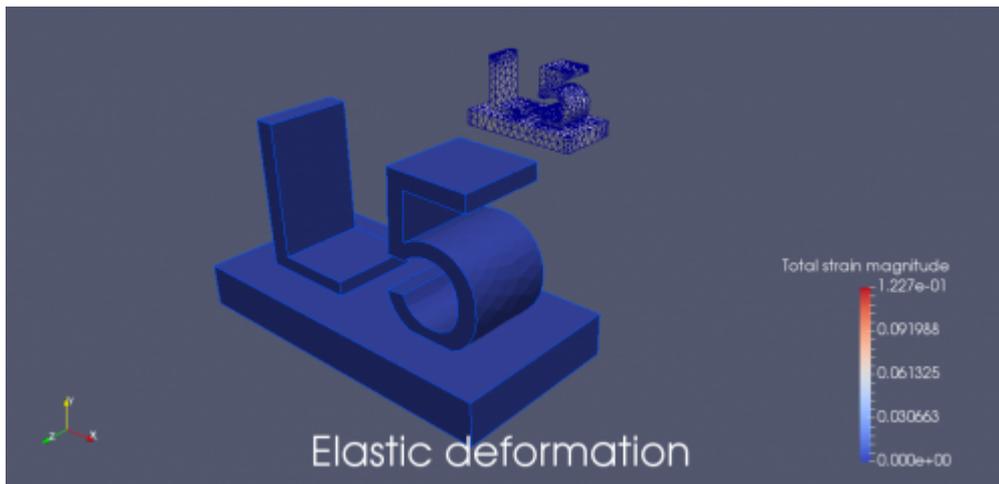

Some funny pictures with L-5 Logo

## L-5 Bending

Animation of elastic deformation of L-5 logo under its own weight (with some cheating as gravity acts not vertically :) Click on the image to start the movie.

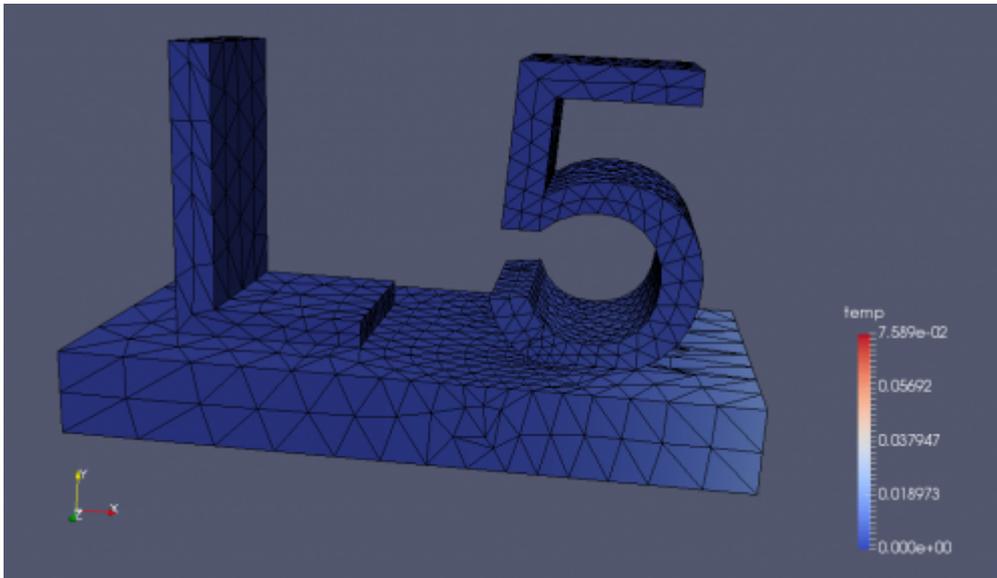

Caution, the second animation is rather big, ~10MB, thus it can load slowly.

## L-5 Rainbow

Animation of heat flow through a L-5 logo. Click on the image to start the movie.

More of similar images can be found at [my Google account](#)

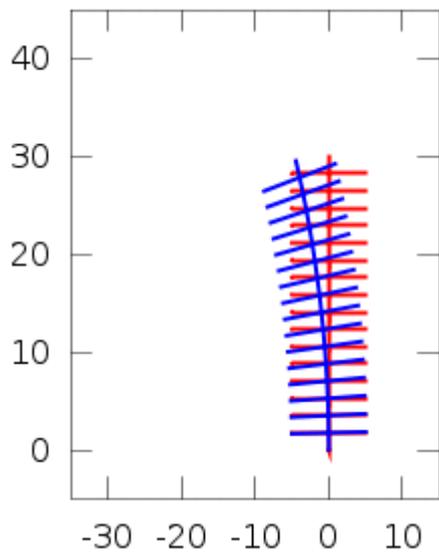

## Playful, alegoric view on L-5 research areas

Concept: Roman Putanowicz and [Anna Perduta](#). Graphic design: [Marcin Tekieli](#).

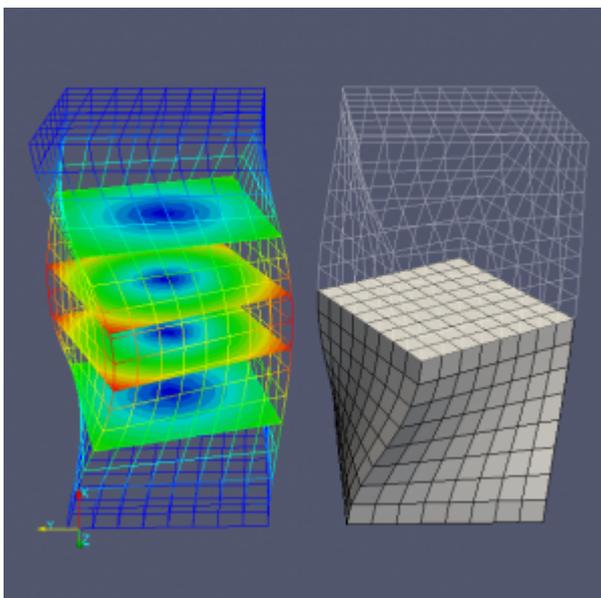

## Morphbar

“Bending a tree” – illustration of the idea from which Morphbar project has originated. More on [this page](#)

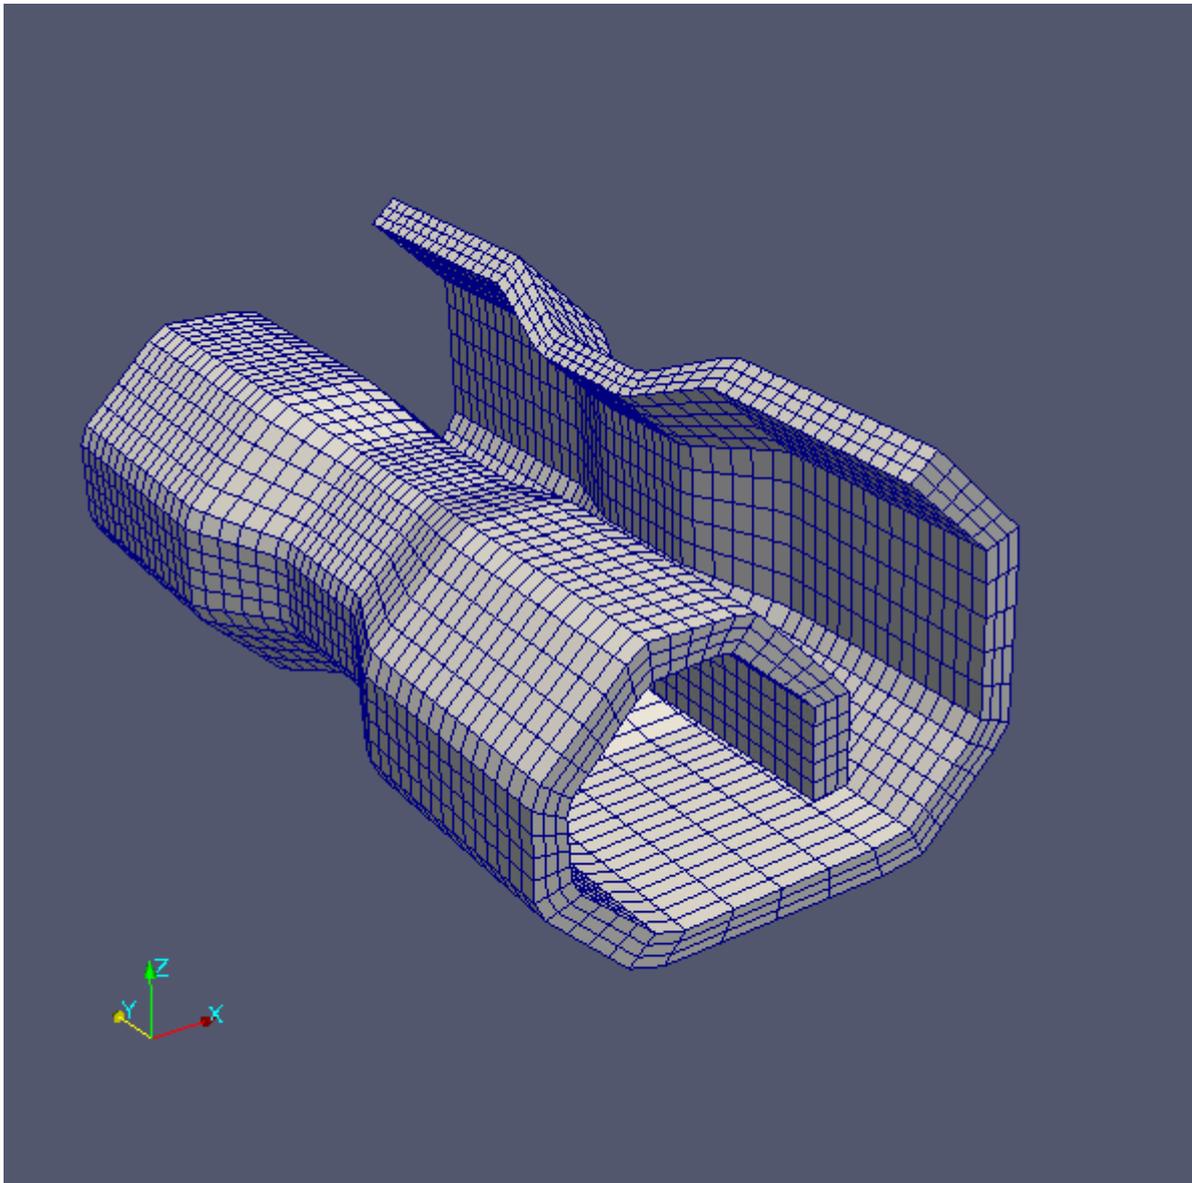

More images related to Morphbar project can be found on [its Trac wiki](#).

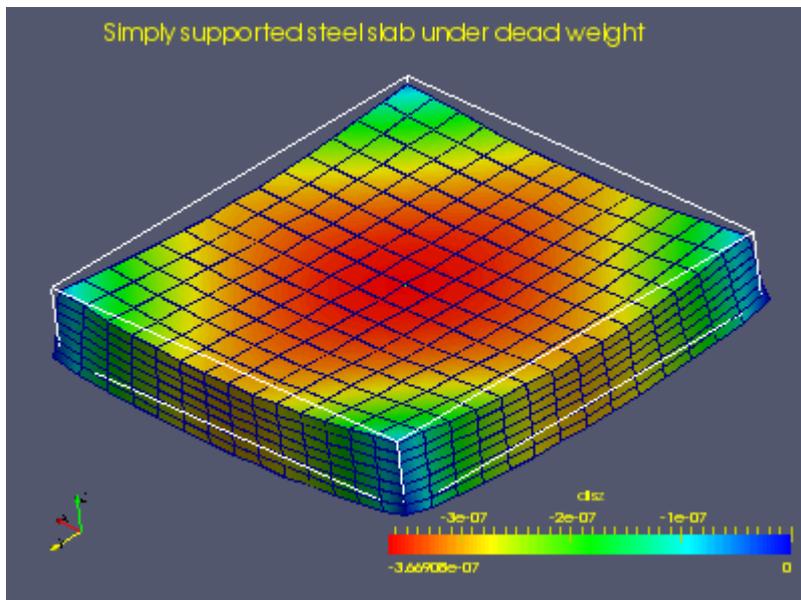

Rotating deformation of NURBS cage:

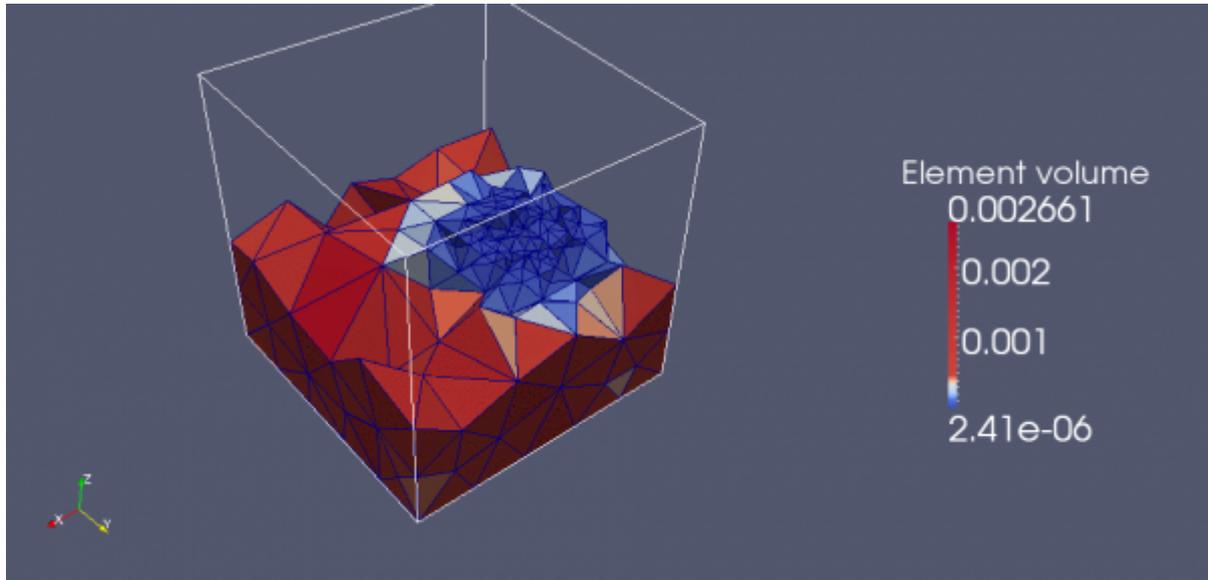

Influence of NURBS order on body shape:
